

Mulch, the Icing on the Cake!

It's decorative. It's functional. Mulch from Stay Green keeps your plants healthy and saves water!

The benefits of mulch include:

- Helps inhibit weed germination and growth
- Increases moisture retention in soil by reducing evaporation from soil surface and helps control temperature of soil, which helps reduce plant stress during severe temperatures
- Reduces amount of water use by 25-50%
- As organic mulches breaks down over time, nutrients and organic material are provided to the soil, helping to create healthier soil
- Reduces soil compaction & helps prevent soil erosion
- It is the icing on the cake, and provides a beautiful finished look to planters
