*The Natural Choice
For Landscape Design/Build Services*

**We Design It.
We Build It.
We Make It Sustainable.
You Reap the Rewards.**

Designed and Built For Long-Term Sustainability and Economy

Sustainability

- ✓ Every design created with an eye toward positive environmental stewardship.

Water Efficiency and Plant Health

- ✓ Expert plant selection and placement increases irrigation efficiency and ensures healthy vegetation.

Client-Specific Vision

- ✓ Landscape design based on each property's unique location and topography.

Natural Beauty

- ✓ Stay Green utilizes beautiful, lush native vegetation well-suited to the climate.

Smart Use of Resources

- ✓ Design/Build Services consolidate functions, providing cost-effective, seamless service from design through construction.

Return on Your Investment

- ✓ Sustainable, efficient landscapes require less water, less replanting and are more cost-effective to maintain.

Comprehensive Services

Stay Green Inc.'s Design/Build Services offer complete project delivery, from inception through design and construction. Integrated Design/Build Services deliver a positive return on your landscaping investment, whether the project is starting from scratch or a redesign of an existing landscape. Stay Green's Design/Build team can transform your landscape, making it more sustainable, efficient and cost-effective.

Before: Kaiser Permanente, Panorama City Parking Median Turf Conversion Phase I

Always Sustainable

Stay Green Inc. approaches every project with sustainability in mind. For example, in a typical turf replacement project we'll utilize the old turf as fertilizer and retrofit the irrigation system to upgrade it to modern drip technology. We strive to reduce waste while creating beautiful landscapes – so our clients don't have to compromise between beauty and efficiency. Stay Green Landscape Design/Build Services creates and constructs intelligent landscape designs that offer stunning beauty and efficient use of your resources – both financial and natural!

After: By converting from thirsty turf to a sustainable Design/Build solution, Kaiser Permanente will realize a significant return on its investment, with diminished maintenance costs and as much as a 90 percent reduction of its landscape irrigation costs.
