

Watching Your Water

Spring is here! Is your irrigation system ready to perform?
Now is the time to evaluate your system.

California's record-setting drought has brought on mandatory conservation measures. We'll help make sure you're in compliance, and keep your water bill under control, too.

Save Water!

SERVICES

- Identify & repair malfunctions in system valves, laterals & heads
- Convert to smart irrigation controllers
- Install flow sensors & master valves
- Convert to drip irrigation
- Utilize low-flow nozzles
- Eliminate runoff & overspray, saving on costly repairs of buildings and asphalt
- Conserve one of our most precious resources
